

## MS 291

Equipped to handle demanding tasks, the MS 291 increases running time by 20% over previous model. Packing plenty of power, this chainsaw is ideal for felling, firewood cutting and storm cleanup. Several user-friendly features include an advanced anti-vibration system that reduces operator fatigue and side chain access for easy saw chain adjustment. The MS 291 is a dependable choice for a mid-range chainsaw.

## Standard Features

### Common Features for Chainsaws

[View](#) the features common to many STIHL chainsaws.

### Anti-Vibration System

STIHL has developed a system for minimizing the vibration levels of handheld outdoor power equipment. The STIHL anti-vibration system helps reduce operator fatigue and provides a more comfortable working experience.

### Pre-Separation Air Filtration System

This time-saving technology boosts the efficiency of the engine's filter system, doubling the time between air filter cleanings. Air drawn into the engine is first separated via centrifugal force, ejecting the heavier dirt particles before being routed to the air filter. This pre-separation means less dirt to be captured by the air filter, resulting in less frequent cleaning and maintenance.

### Side-Access Chain Tensioner

The side-access chain tensioner makes it much more convenient for the user to adjust the saw chain with a bar wrench as opposed to the typical location of the guide bar adjustment screw.

### Toolless fuel and oil caps with retainers

Simply lift the lever and twist the caps to remove or tighten. There's no need to use a tool to tighten or loosen.

## Important Information

**WARNING!** The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chainsaws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL Quickstop® Plus (Q) additional chain braking feature, STIHL reduced kickback bars and STIHL low-kickback saw chains.

## Farm & Ranch Saws

16 in. Bar : \$439.95

18 in. Bar : \$449.95

20 in. Bar : \$459.95
