

The First Name in Turf Renovation™

LAWNNAIRE® ZTS

A New Approach to Aeration, the Lawnaire® ZTS Stand-On Aerator

- Innovative automatic chain tensoning system reduces the chain maintenance required.
- Aeration Depth Control for precision aeration in varying soil conditions.
- Intuitive control panel with a tine lift switch to raise and lower tines
- Flip up operator platform with a quick latch allows for the Lawnaire ZTS to be a walk behind aerator and a reduced footprint on trailers.
- Built in jack stands allow for easy maintenance of the Lawnaire ZTS

The Lawnaire ZTS will change the way you aerate!

SPECIFICATIONS

Engine	Kawasaki FS541V
Fuel System	
Capacity (gal)	5
Safety System	
Interlock	Engine will not start unless parking brake is engaged and OPC is released
Transmission	
Hydrostatic	2 Hydro Gear ZT3200
Hydraulic Oil Capacity (oz)	7 Quarts
Ground Speed	
FWD (mph)	0 - 7.4
REV (mph)	0-3.1
Wheel & Tine Drive	
Drive Wheels	Driven through roller chains
Tine Drive	Outside aeration tines are driven through roller chains
Turning radius - Tines down	5ft
Turning radius - tines up	0
Time to raise/lower tines (Sec)	1.4 up, 1.8 down
Tires and Wheels	
Style	
Drive	Pneumatic
Front Caster	Pneumatic
Drive	18 x 6.50 - 8
Front Caster	13 x 5.00-6
Pressure	
Drive (psi)	15
Front Caster (psi)	25
Aeration	
Aeration Width (in)	30
Tines (Qty)	48
Tine Down Pressure (lbs)	0-700
Core Depth (in)	2 - 5 inches
Holes per square foot	~5.1 (55/m ²)
Dimensions	
Width (in)	47.25
Length (in)	60.5 platform up-69.5 platform down
Height (in)	48
Curb Weight (lb)	1235
Productivity	up to 97,800 FT ² /hr (9,086 m ² /hr)
Warranty	2-year Limited Warranty

Specifications subject to change without notice.

Innovative automatic chain tensoning system reduces the chain maintenance required

Aeration Depth Control for precision aeration in varying soil conditions; aerates up to 5" deep, in half inch increments.

Tine lift switch to raise and lower tines conveniently located near control lever.
