## INTRODUCING EDCO's NEW SELF PROPELLED FLOOR STRIPPER

This unique floor stripper uses 2 motors, adjustable working positions, controlled speed, and direct ramming action to remove all kinds of floor coverings including ceramic, vinyl, wood, carpet, and rubberized coatings.

- Self propulsion drive can be used both manually or automatically making removal and transport easy
- Ram action is applied directly and is isolated - making it more powerful
- Height adjustable and vibration dampened handle maximizes operator comfort
- Built in weights are adjustable to three positions, ensuring optimal blade pressure for all kinds of removals
- Well balanced design enhances transportability and removal
- Stable and balanced lifting point
- 2 Motor machine plugs into any 110 volt outlet

\*Width based on handlebars.

### 14" SELF PROPELLED FLOOR STRIPPER

MODEL #	PART #	POWER	AIR POWER	PHASE	AMPS	RPM's	BELTS	LENGTH	*WIDTH	HEIGHT	WEIGHT
TS-14	94700	Electric	2 HP, 115V	Single	16.9	1700	N/A	35.4"	15"	43.3"	539 lbs

**PRODUCTION RATE:** Remove hundreds of sq. ft. per hour of vinyl, carpet, ceramic parquet and other floor coverings. (Square footage amounts and time schedules will vary based on material and adhesion)

**PRODUCT NOTES:** Provides thousands of blade hits per minute • Removable weights consisting of 2 inboard 55 lb weights, and 2 outboard weights at 66 lbs each

**IDEAL FOR:** Commercial carpets, sheet goods, VCT, hardwood and parquet, rubber flooring, coatings, membranes, sports surfaces and ceramic tile.

\* RPM's are based on the machine's accessory speed.
